Exceptions

- *Teams who are competing in a CEV or FIVB tournament which conflicts with the dates of domestic 4* or Grand Slam level event may substitute those events for up to 2 of their required domestic events. The default conflict dates relate to tournaments occurring the same week, or an international event occurring the week after a UKBT event.*
- *Every effort must be made by teams competing in CEV/FIVB event to play in the Domestic Tour events when elimination from these events allow enough time for return to England to compete.*
- *Teams who are competing extensively internationally and unable to accommodate UKBT events into their planned competitions schedule may be exempt, The Strategic Manager (Volleyball for Life) will review their plans and grant the exemption in collaboration with Tech & Talent Sub Group where suitable.*
- *Junior athletes who are on the Volleyball England talent pathway will have their eligibility to senior level events assessed by their respective Junior England Head Coach in conjunction with the Senior Head Coach, however it is strongly advised they should compete in senior level UKBT events where possible that offer development opportunities.*
- *Players residing abroad, whether permanently or partially, will need to be available for international commitments when selected. If this is for educational purposes, there will need to be an understanding of this, and an agreement reached with the educational establishment to allow release when required. Close cooperation between VE and the relevant parties is vital for both parties to understand and agree this process.*
- *If any injury prevents an athlete competing in the required number of events. Medical advice must be sought, and confirmation of physical readiness given, before a return to international level events is approved.*

The Strategic Manager (Volleyball for Life), after consulting with relevant parties, has discretion on applying exemptions to any other situation, subject to a review process.

C. Selection Criteria: The Selection Criteria for each level of squad / tournament is as follows:

1. Selection of teams to compete in Home Nation

- Entry will be at the discretion of the Head Coaches and The Strategic Manager (Volleyball for Life). FIVB ranking points and development requirements will be considered.

2. Selection of teams to compete in NEZVA, CEV and FIVB events

- Tournament selection will be made solely on FIVB Entry Points. (with possible exception for NEZVA's & other Zonal Events offering development opportunities for junior players/teams)
- In the event more teams wish to enter than the NF allocation allows, a decision will be made at the discretion of the Strategic Manager (Volleyball for Life) and relevant parties as to whether a country quota match / tournament is arranged, or the top ranked teams are selected. Teams will need to provide a case for why a country quota match shall be arranged.

(Please note, due to a change in FIVB regulations, the cost of Country Quota matches which take place at the host venue will fall to the National Federation of the teams competing, and Volleyball England does not have a budget to pay for Country Quota matches)

NB: Major games events will be subject to a specific selection policy in line with the qualification process and organising committee requirements.

*All selections are subject to approval by the Volleyball England Technical and Talent Subgroup.
